

This tutorial will show you how to setup your Curation Hero plugin and add a social account that comes with your level of Curation Hero.

Step 1 – Log in to your Wordpress Dashboard.

Step 2 – Navigate to Plugins section and click “Add New” to add a new plugin.

Step 3 – Click “**Upload Plugin**” button.

Add Plugins [Upload Plugin](#)

Featured Popular Recommended Favorites

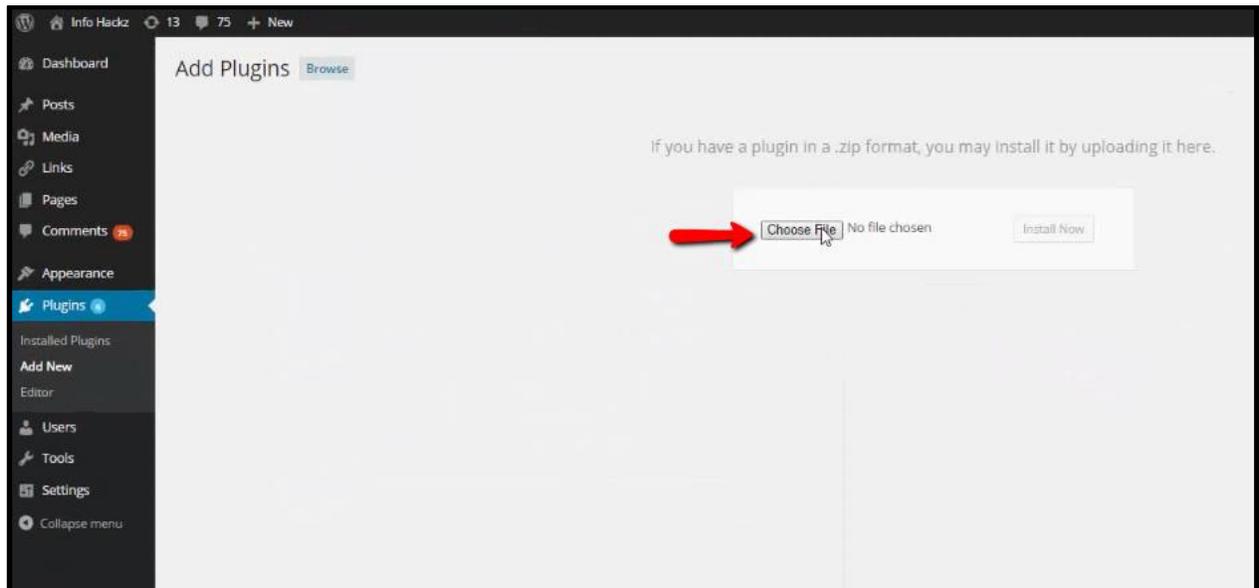

Plugins extend and expand the functionality of WordPress. You may automatically install and activate plugins from the WordPress.com Plugin Directory.

Akismet [Update Now](#)

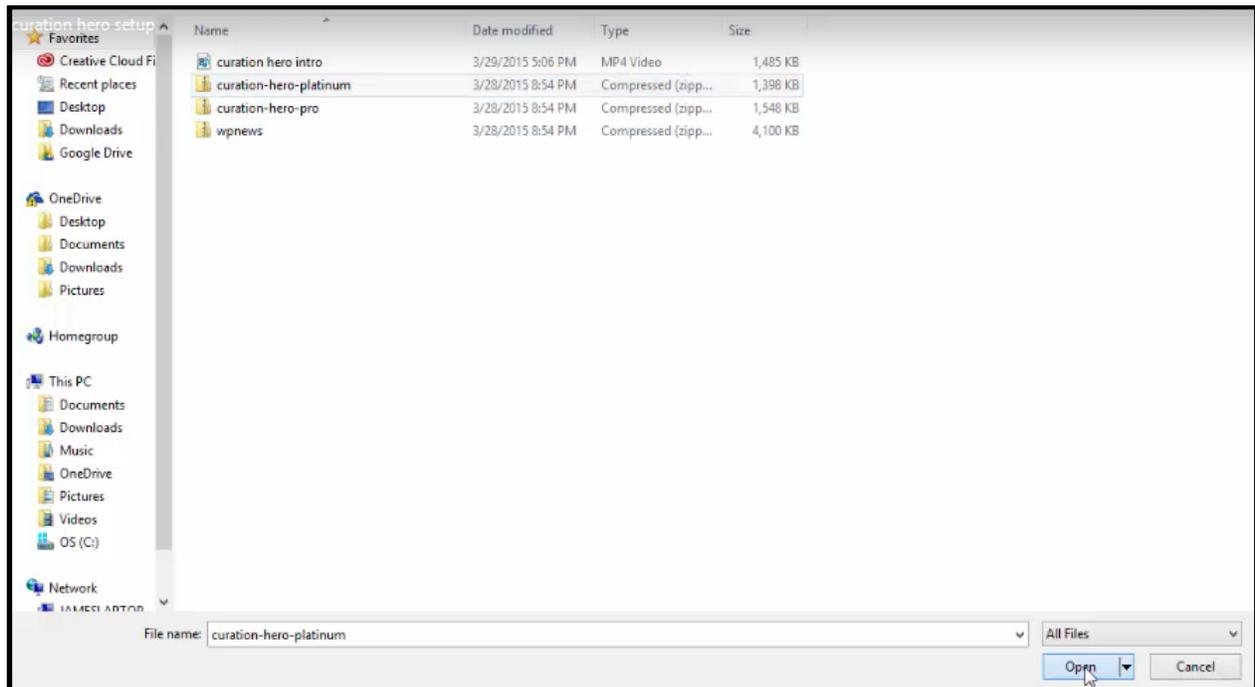

Akismet checks your comments against the Akismet Web service to see if they look like spam or not. [More Details](#)

By Automattic

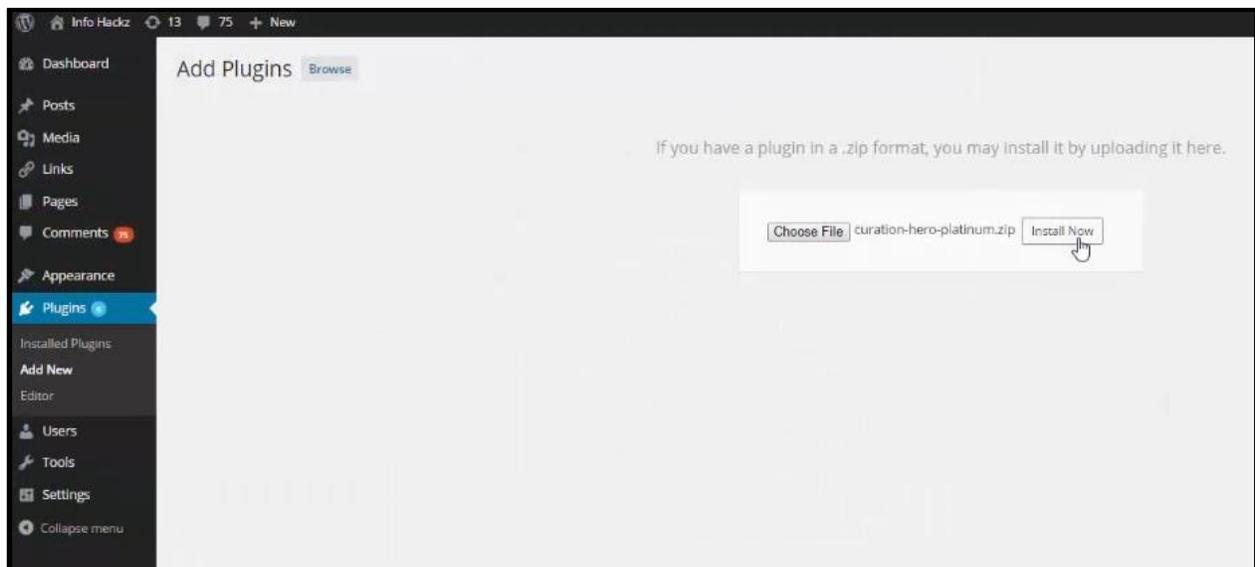

Step 4 – Click “**Choose File**” button and a new window will pop up.

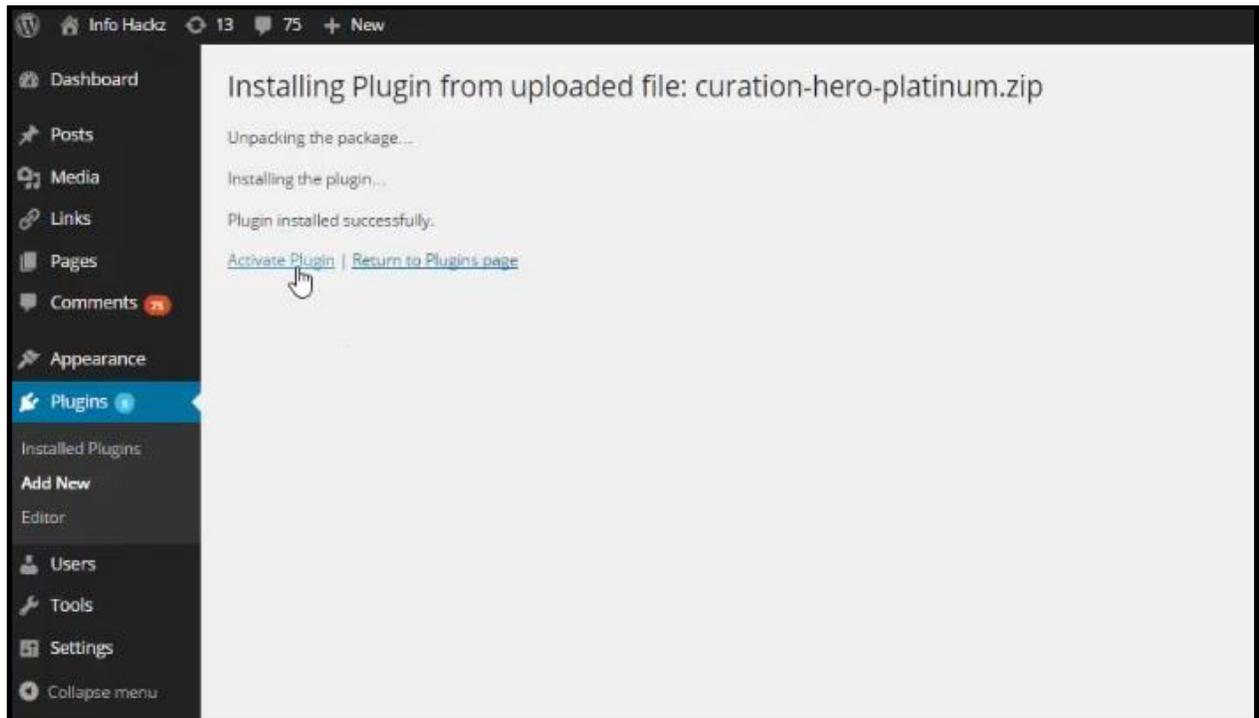

Step 5 – Select the file of the plugin you download earlier and click Open.

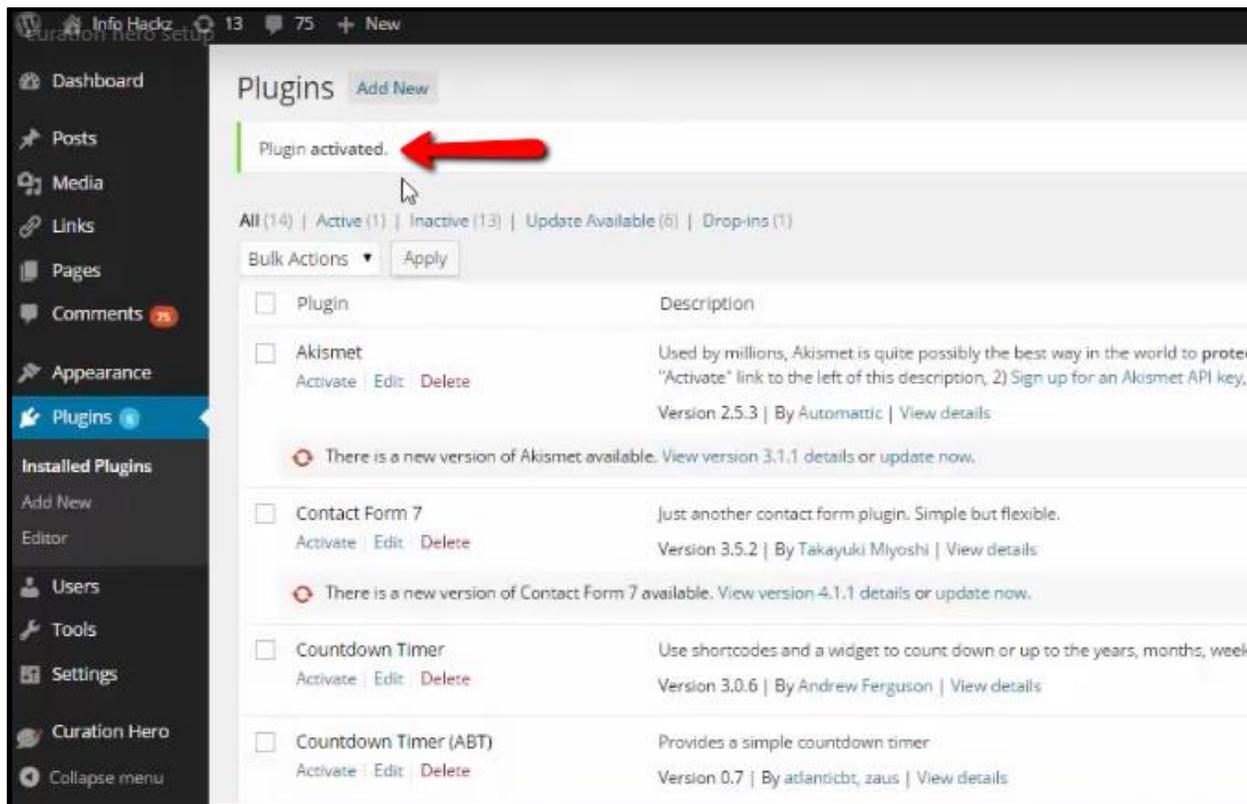

Step 6 – Now, click “Install Now” button to install it.

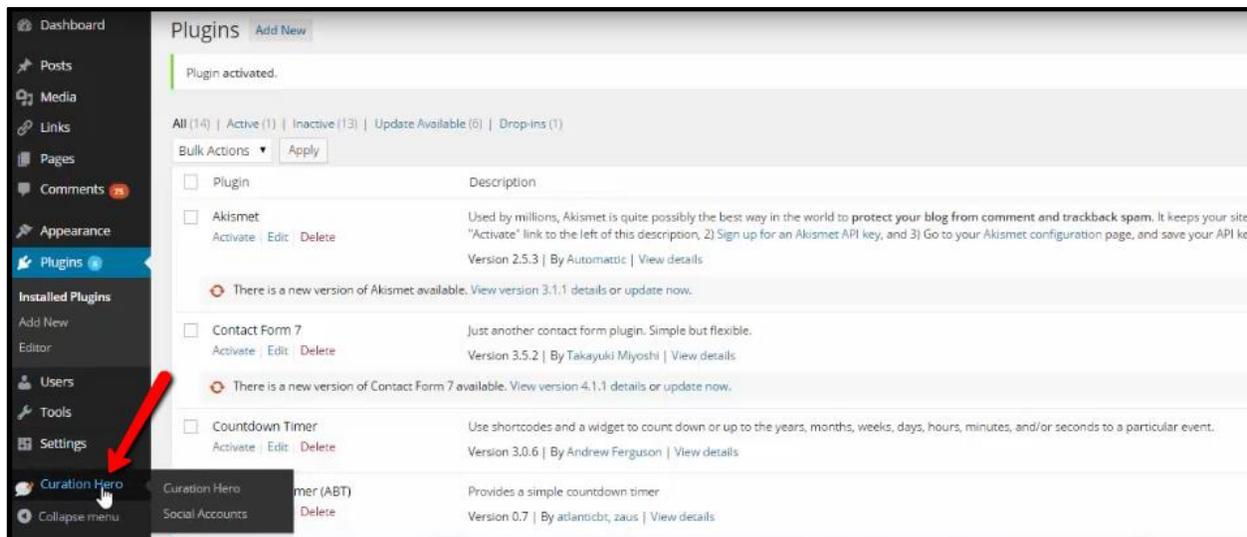

Step 7 – Click Activate Plugin to activate the plugin you just installed.

And it will show “**Plugin activated**” as indication that you have successfully enabled the plugin.

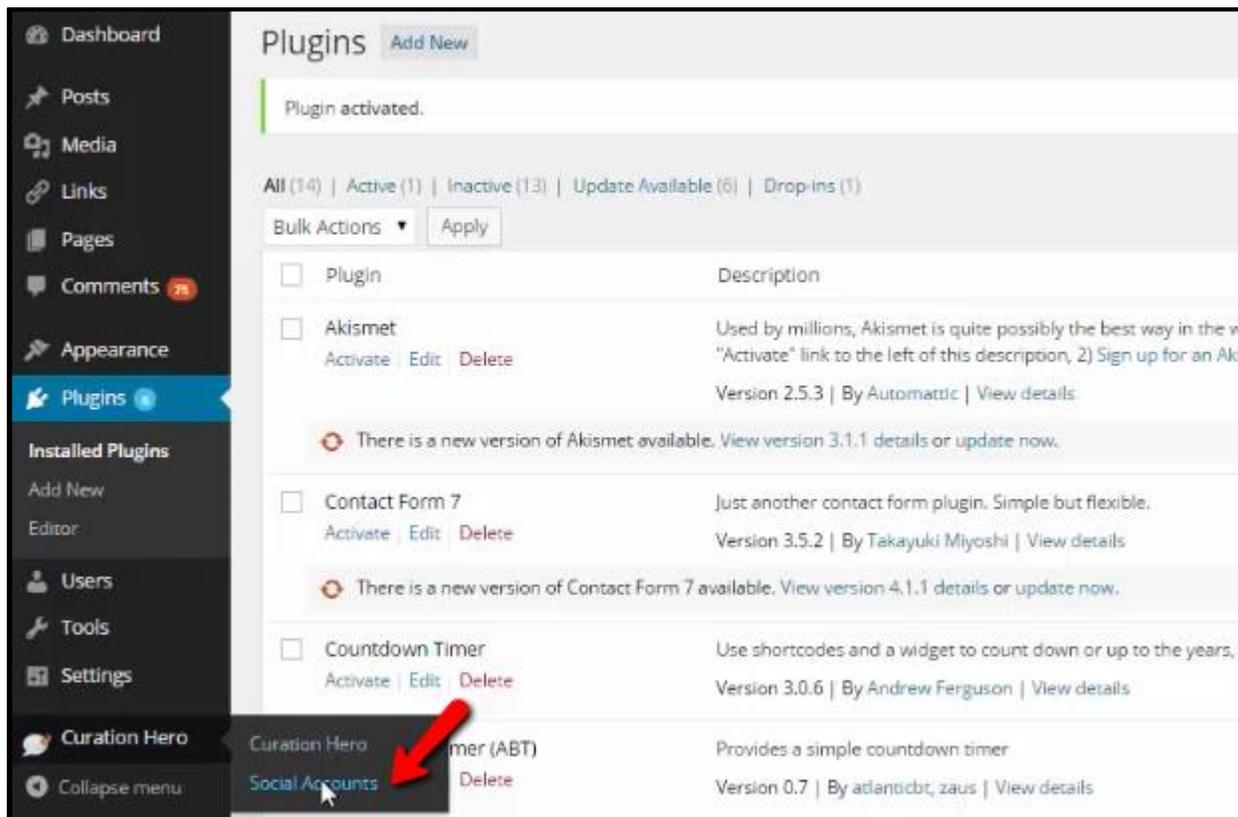

You will then see Curation Hero from your Dashboard menu:

Note: The first time you click Curation Hero will require you to input your license details that you should have received shortly after purchased. If you didn't receive it, go ahead and contact Support.

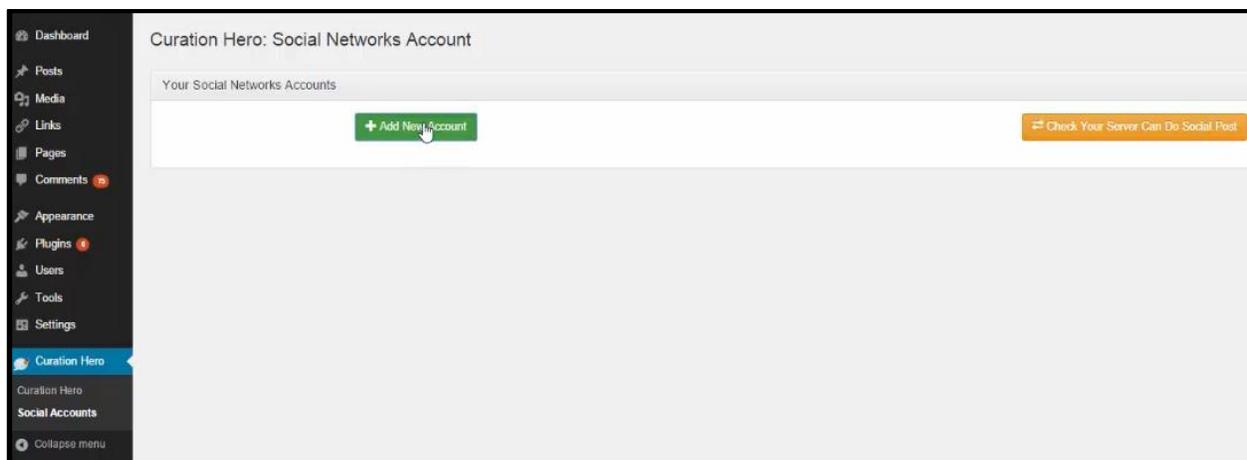

Step 8 – Now, let's add a Social Account. Still in the **Curation Hero** section, select **Social Accounts**.

The screenshot shows the WordPress Plugins page. The left sidebar contains the Curation Hero menu with 'Social Accounts' highlighted. The main content area shows a list of installed plugins. A red arrow points to the 'Social Accounts' menu item in the sidebar.

Plugin	Description
Akismet	Used by millions, Akismet is quite possibly the best way in the w "Activate" link to the left of this description, 2) Sign up for an Ak Version 2.5.3 By Automattic View details
Contact Form 7	Just another contact form plugin. Simple but flexible. Version 3.5.2 By Takayuki Miyoshi View details
Countdown Timer	Use shortcodes and a widget to count down or up to the years, Version 3.0.6 By Andrew Ferguson View details
Curation Hero	Timer (ABT)
Social Accounts	Provides a simple countdown timer Version 0.7 By atlantictbt, zaus View details

Step 9 – In this page, click “Add New Account” button.

The screenshot shows the 'Curation Hero: Social Networks Account' page. The main content area displays a green '+ Add New Account' button. The left sidebar shows the Curation Hero menu with 'Social Accounts' selected.

And you will get this page:

New Account ✕

Select Network:

Account Nickname:

[Click here for Facebook Setup Guide](#)

Step 1: Fill App Info

Url:

App ID:

App Secret:

Message Format:
[Show Format Info](#)

Step 2: Authorize Account

An Authorize button will show here once you **Save** your account then **Edit** it.

As mentioned earlier, depending on the level that you have will determine the number of social accounts that will show on this drop down area:

New Account

Select Network: Facebook

Account Nickname:

Step 1: Fill App Info

Url:

App ID:

App Secret:

Message Format:
[Show Format Info](#)

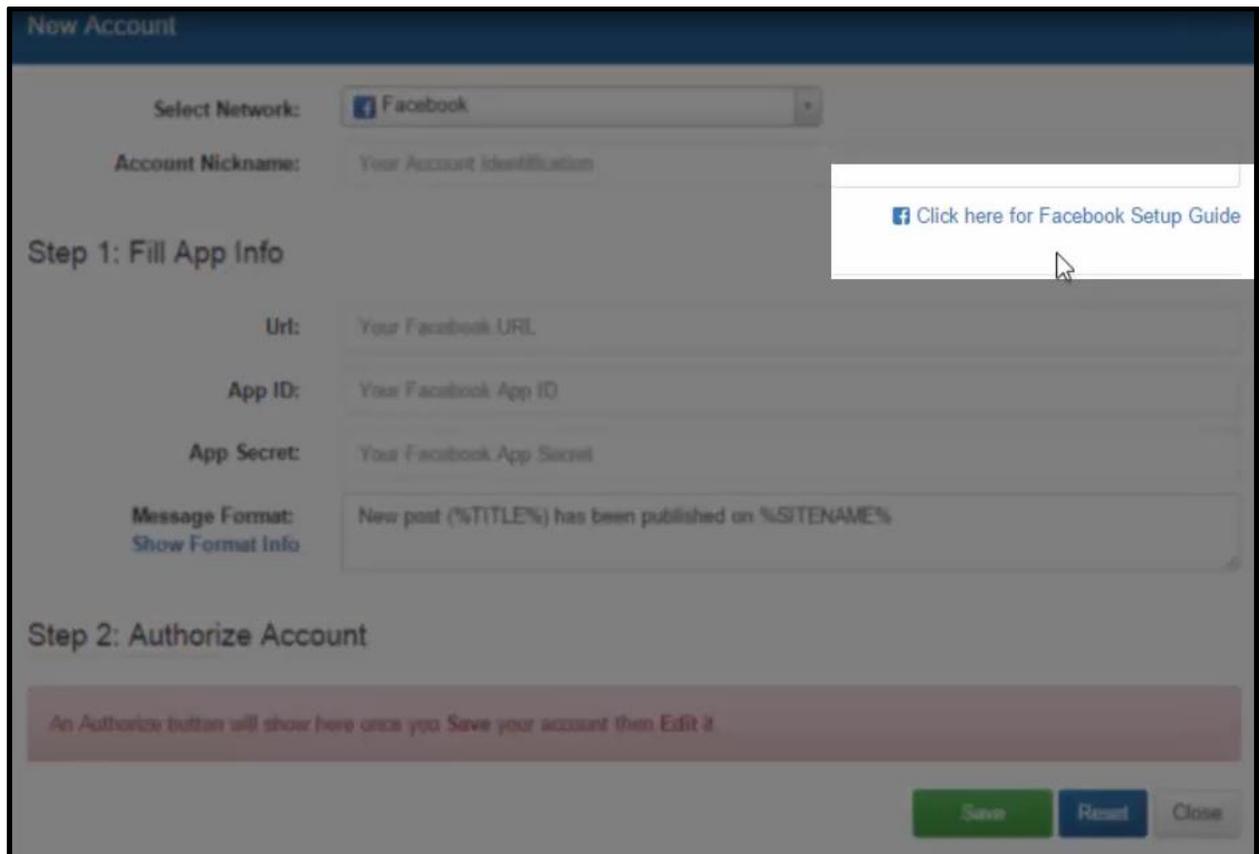

Step 2: Authorize Account

An Authorize button will show here once you [Save](#) your account then [Edit](#) it.

[Save](#) [Reset](#) [Close](#)

Step 10 – In this example, we will setup Facebook.

In the **Select Network** dropdown, select Facebook. As you can see, every social account has a link to the guide where you can click on and it will walk you through the entire process on how to set those things up. It's pretty simple and straight forward.

The screenshot shows a 'Now Account' setup window. At the top, 'Select Network:' is set to 'Facebook'. Below it, 'Account Nickname:' is 'Your Account Identification'. A tooltip with a Facebook icon and the text 'Click here for Facebook Setup Guide' is visible. The form is divided into two sections: 'Step 1: Fill App Info' and 'Step 2: Authorize Account'. 'Step 1' includes fields for 'Urt:' (Your Facebook URL), 'App ID:' (Your Facebook App ID), 'App Secret:' (Your Facebook App Secret), and 'Message Format:' (New post (%TITLE%) has been published on %SITENAME%) with a 'Show Format Info' link. 'Step 2' contains a message: 'An Authorize button will show here once you Save your account then Exit it'. At the bottom right are 'Save', 'Reset', and 'Close' buttons.

Setup/Installation: Facebook – Social Networks Auto-Poster

Browse: [Home](#) > [Instructions](#) > Setup/Installation: Facebook – Social Networks Auto-Poster

The Facebook Platform uses OAuth 2.0 for authentication and authorization. You need to setup Facebook Application and connect this application to your blog and authorize it.

Please see the instructions [below](#):

Facebook Configuration

1. Create an app and community page for your website.

1. Login to your Facebook account.
2. Go to the Developers page: <https://developers.facebook.com/>

If you are not registered as "Developer" yet, you need to click green button "Register as a Developer". [Click here to see the Register as a Developer](#) instructions, otherwise proceed to the step #3.
