WP Video Attention

WP Video Attention is a plugin that allows you to clip your video and serves as a widget to any corner on your page. This allows your videos to VISIBLY continue playing when a user scrolls down a page, so they are still able to see the video and not only hear it.

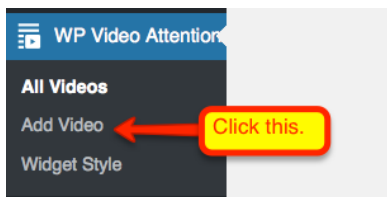

This will help to keep your viewers engaged throughout your entire video while they are exploring the content/other part of your page - So you will never lose the engagement & attention of your viewers that often results in loss of leads, loss of SALES and MONEY.

The plugin will also allow you to position your videos anywhere you want and customize it to make it relevant with your website/webpage design or branding. There are MANY more amazing features such as countdown-timer, share button and animation/ effect that will help your page get sky-high conversions and engagement.

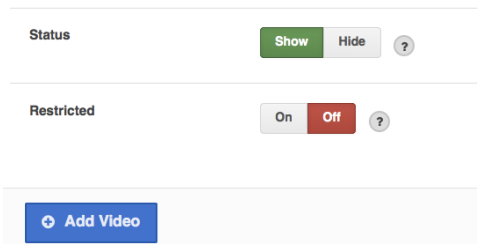

I. Creating a New Video

To create a new video, please follow these steps.

1. Navigat to the WP Video Attention link from the WordPress Dashboard, then click “Add Video” as shown in the screenshot below.

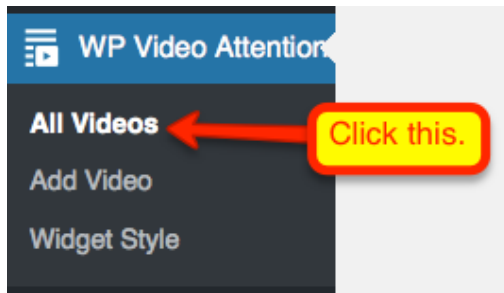

2. Next you will be taken to a page which allows you to add a video and then set various options for it. This will be explained further in the next section of this document.
3. Once you have set the various options, you need to click on the “Add Video” button to save the video you just created.

II . Updating The Video

Setting the other options of the newly created video or just updating an already existing video is also very simple and can be done by the following the steps below.

1. Navigate to the WP Video Attention link in the WordPress Dashboard, then click on the “All Videos” link as shown below.

2. You will be shown a list of all the videos the published that you've created. Each video has a menu link (with three dashes) to the right most portion. Click on that and then at the sub-menu, click on the “**Edit Video**” link to edit the video.

3. You will be taken to another page showing the details of the video and you can make changes to the various options from there. Once you are done, click on the “Save Change” Button anytime to save your new settings.

III. Deleting Video

To delete the video, please follow these steps:

1. Access the All Videos link from the WP Video Attention menu. This is similar to the first step of the previous instruction on updating the video.

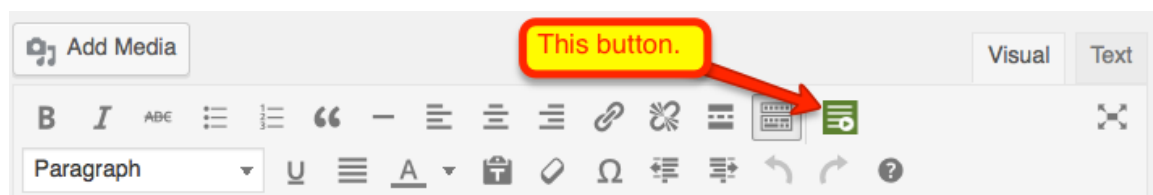

2. You will then be taken to another page showing you a list of all published videos. Click to the right most link of the your chosen video, then click further on the “Delete Video” sub-menu that pops up.
3. You will then be prompted with a pop-up window asking you whether to continue or not. Click on YES to delete the video. Otherwise, click Cancel.

IV. Inserting A video to A Page or Post

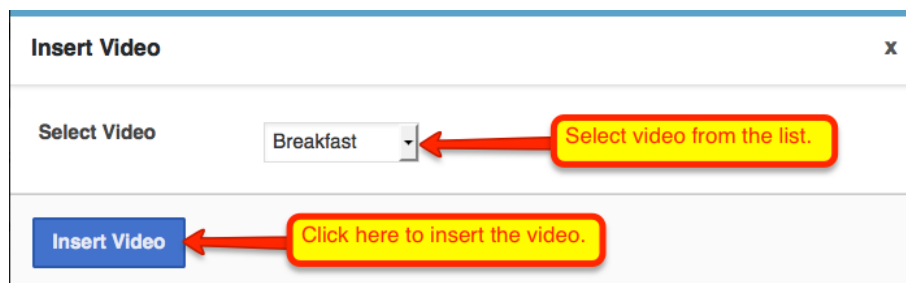

To insert a video into any page or post, please follow the steps below.

- a) Access the page or post where you want to insert a video or create a new page/post.
- b) Click the WP Video Attention Button from the Post/Page Editor Toolbar.

In the settings editor contains post / page click shortcode button to insert a video as shown in the figure below:

- c. A pop-up window will appear, which allows you to select a video from all your published videos. Select the video that you want to embed and then click the “Insert Video” button to embed the video to the page/post.

- d. Finally, continue working on the page/post as you normally would.

V. Video Options

Here is an explanation of the various option settings available for the WP Video Attention Plugin. Let’s divide them into parts according to the tab where each part belongs.

A. The General Tab

General
Basic settings and info of your video

[Save Change] [Delete]

1. Background Color -- Determines the background color of the main video.
2. Border -- Sets a border around the main video. Here you can specify the thickness and color of the line.
3. Text Color -- Determines the color of the text that is on the main video.
4. Font Family -- Determines the type of font of the text that is on the main video.
5. Font Size -- Determines the font size of the text that is on the main video.
6. Text Align -- Specifies the text alignment and the main video.
7. Padding -- Determines the distance between the main video and edges.
8. Border Radius -- Determines the curvature of the border around the main video.
9. Shadow -- Determines the shadow effect on the main video.

C. The Main Content Tab

<ul style="list-style-type: none"> General Style Main Content Countdown Button Optin Form Share Statistic 	<div> Content </div> <div> Set the video content. <div> Save Change </div> <div> Last Update: 22 October 2015, 11:17:50 </div> </div>
	Video
	Video Type <div> <input type="radio"/> Upload <input checked="" type="radio"/> Youtube </div>
	Youtube Video URL <div> <input type="text" value="https://www.youtube.com/watch?v=kqL2G9YLB1c"/> </div>
	Start time <div> <input type="text" value=""/> second </div>
	Settings
	Video Width <div> <input type="text" value="450"/> px </div>
Video Height <div> <input type="text" value="320"/> px </div>	
Autoplay <div> <input type="checkbox"/> On <input checked="" type="checkbox"/> Off </div>	
Info	
Title <div> <input type="text" value="Breakfast"/> </div>	

This section contains options to adjust the main content, both video and text information about the video. Here are the available options.

1. Video Type -- Determine the type of video you want to display. You can choose whether you want to display video by uploading a video file or specify Youtube as a video source.

When you select the option “Upload,” then you must specify the options below.

- a. Video File – Click on the Select Vide Button to upload a video from your local drive.
- b. Video Poster -- Specifies the image file that will serve as the video preview image.

If, on the other hand, you selected Youtube in the Video Type Radio box, the following options will appear:

- a. Youtube Video URL -- Specifies the URL of your Youtube video.
- b. Start time -- Determines the starting time of the video.

2. Video Width -- Determines the width of the main video.
3. Video Height -- Determines the height of the main video.

4. Autoplay -- Determines whether the video will automatically run when the page is first loaded.
5. Title -- Sets the title of the video.
6. Info - Sets the video description.

D. The Countdown Tab

The screenshot shows the 'Countdown' configuration tab. On the left is a sidebar with navigation links: General, Style, Main Content, Countdown (selected), Button, Optin Form, Share, and Statistic. The main area is titled 'Countdown' with a subtitle 'Set the countdown content.' and a 'Save Change' button. Below this, there are several settings:

- Show/Hide Countdown:** Buttons for 'Show' and 'Hide' (highlighted in red), with a help icon.
- Target Date:** A date picker set to '2015/10/22' and a time picker set to '18:15', with a help icon.
- Format:** A dropdown menu set to 'Days Hours Minutes Seconds', with a help icon.
- Design Section:**
 - Background Color:** A color selector set to black, with a help icon.
 - Font Family:** A dropdown menu set to 'Roboto', with a help icon.
 - Text Color:** A color selector, with a help icon.
 - Border:** A setting for '2 px' and a color selector set to black, with a help icon.
 - Border Radius:** A dropdown menu set to 'Small', with a help icon.

At the bottom of the main area are 'Save Change' and 'Delete' buttons.

This section contains options to adjust the content countdown, both video and text information about the video.

1. Show / Hide Countdown -- Sets whether to display the countdown or not.
2. Target Date -- Sets the target date of completion of the countdown.
3. Format -- Sets the time format of countdown timer.
4. Background Color -- Sets the background color of the countdown timer.
5. Font Family -- Sets the font of the text.
6. Text Color -- Sets the text color.
7. Border -- Sets the border around countdown.
8. Border Radius -- Set the level of curvature at the edges countdown.

E. The Button Tab

This section contains options to adjust the content of the video's button, which appears below it in the page.

1. Button Target – Sets the target or purpose of the link when the it is clicked by the user.

There are two options available, namely: Page URL and Opt-In Form.

When a user selects Page Url then link when clicked will go to the page of the specified URL. You must then specify the Page URL from the settings panel to set destination url of the page when the button is clicked.

Meanwhile, when the user selects the option Opt-In Form, then when the button is clicked it will display the Opt-In Form allowing the user to, say, subscribe to a mailing list by providing his/her email address. Opt-In Form settings will be explained in the next section.

2. Button Text -- Sets the text of a button.
3. Button Icon -- Sets the icon of the button.
4. Align Text -- Sets the alignment of the text button.
5. Button Size -- Sets the size of the button.
6. Open in New Tab Button – Determines whether to display the page in a new tab.

F. The Optin Form Tab

This section contains various options to set the Optin Form

1. Form Title -- Specifies the title of the form.
2. Form Info -- Determines the caption of the form.
3. Form Code -- Sets the optin form's code provided by the autoresponder service you choose. Once you enter the code in the input form above, then it will be the basis of gathering the important opt-in components, such as the following.
 - a. Action Url -- Specifies the URL that handles the form when it is processed.
 - b. Form Field Email -- Usually comes in two complementary components: the field label and the email input field itself. This is usually a required field.
 - c. Form Name Field -- Depending on the Opt-In code that you embedded, sometimes this field is not provided since this is really optional.
4. Show / Hide Form Label -- Determines whether to display the label on each input form or not. If set to Hide, the form label will be displayed as a placeholder of the input field.
5. Submit Button Text -- Set the text or label of the submit form button.

G. The Share Tab

The screenshot shows the 'Share' tab in a settings interface. On the left is a sidebar with menu items: General, Style, Main Content, Countdown, Button, Optin Form, Share, and Statistic. The 'Share' tab is selected. The main content area has a header with a 'Share' icon, the title 'Share', a subtitle 'Setting the share button in the widget.', a 'Save Change' button, and a timestamp 'Last Update: 22 October 2015, 11:17:50'. Below the header, there are three sections: 1. 'Show/Hide Share Buttons' with 'Show' and 'Hide' buttons and a help icon. 2. 'Button Activate' with the instruction 'Select one or more share button that you want to display on the contest below.' and a row of social media buttons: Facebook, Twitter, Google+, LinkedIn, Tumblr, Pinterest, and Stumble Upon. Below this row is a 'Digg' button. 3. 'Button Style' with a dropdown menu set to 'Square Flat' and a help icon. Below the dropdown is a 'Preview' section showing a row of social media icons: Facebook, Twitter, LinkedIn, Pinterest, Google+, Tumblr, Stumble Upon, and Digg. At the bottom of the main content area are 'Save Change' and 'Delete' buttons.

This section contains options to manage the various social media profile links allowing the site visitors to share the video.

1. Show / Hide Share Button -- Sets whether or not to display the social media share buttons.
2. Activate Button -- Sets the specific social medias buttons which will be added to the video page.
3. Button Style -- Set the display type of the share button icon.

WIDGET STYLE

Widget Style is a section for controlling the display of a video widget that will appear when the page video is scrolled past its original location in the page.

VI. Adding Widget Style

To create a new video widget, please follow these steps:

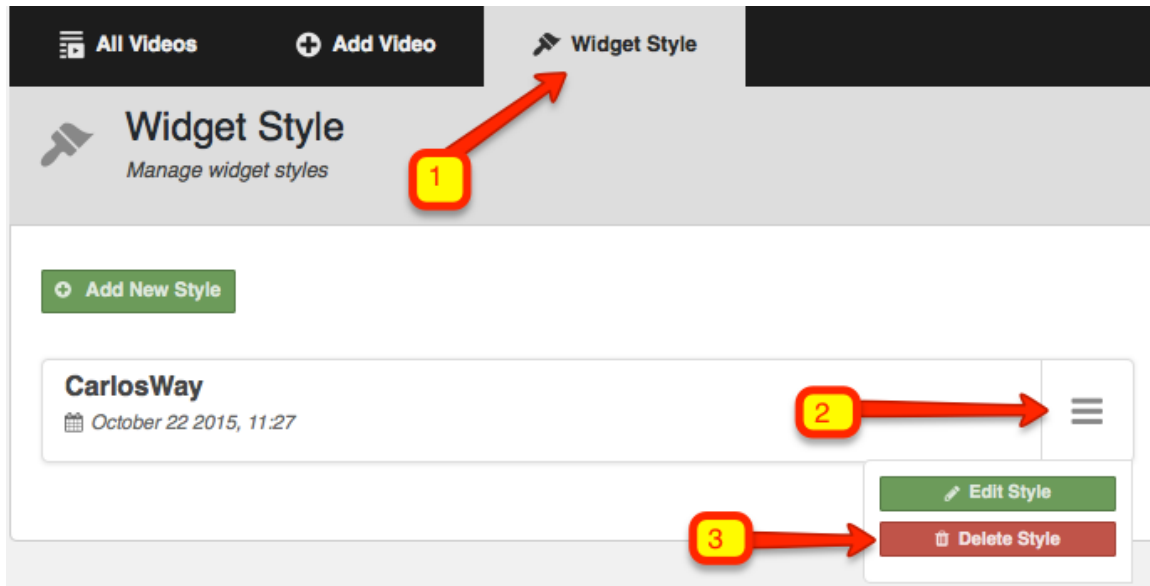

1. Navigate to the WP Video Attention Menu link from the Dashboard and then click on the “Widget Style” Link.
2. On the Widget Style Panel that displays, click on the Add New Style Button. You will then be taken to a new page which allows you to set various options for the widget that you want to create. These options will be explained in another section later.
3. Once you are done setting the various options for the widget, simply click on the Add Style Button to save the video widget.

VII. Edit Widget Style

To modify and manage content and style options of the video widget, please follow these steps:

1. Access Widget Style clicking the "Widget Style" link either from the WP Video Attention Menu from the Dashboard or from its main Tab located at the top.
2. You will then be shown the list of widget styles you've created. At the rightmost side of each list is a menu link. Click on that to display a sub-menu. And then once you see the Edit Style link, click on it to display the various settings you can do with the Widget style.
3. Click on the “Save Changes” Button anytime for the modifications to take effect.

VIII. Delete Style Widget

To delete a video data, please follow the steps below.

1. Access main page Widget Style via the "Widget Style" menu link either from the WP Video Attention Dashboard or from its main tab located at the top.
2. On Widget Style Panel, the a list of available styles will display and at the right most portion you will see a menu link. Click on it to display a pop-up sub-menu and then click on the "Delete Style" button.
3. You will be prompted to continue with the deletion process. Click Yes to delete or click Cancel to not delete the video.

IX. Widget Style Options

Here is a description of the various option settings available for the Widget Style. We categorize each option by tabs as follows.

C. The Header Tab

The screenshot shows the 'Header' configuration tab for a video widget. The left sidebar has tabs for General, Style, Header (selected), Content, and Effect. The main area is titled 'Header' with the subtitle 'Set the header in the widget.' and a 'Save Change' button. Below the title bar, there are several settings:

- Show/Hide Header:** A toggle switch with 'Show' (green) and 'Hide' (grey) options, and a help icon.
- Header Text:** A text input field containing 'CarlosWay Header Goes Here' and a help icon.
- Header Icon:** A large grid of various icons for selection, with a help icon.
- Text Align:** A dropdown menu set to 'Left' and a help icon.
- Show/Hide Close Button:** A toggle switch with 'Show' (green) and 'Hide' (grey) options, and a help icon.
- Show/Hide Minimize Button:** A toggle switch with 'Show' (green) and 'Hide' (grey) options, and a help icon.

At the bottom right, there is a 'Last Update: 22 October 2015, 11:27:37' timestamp.

This section contains options to set the header portion of the video widget.

1. Show / Hide Header -- Determines whether to display the headers in the widget.
2. Header Text -- Determining the header text in the widget.
3. Header Icon --Determining the icon in the widget header.
4. Align Text -- Determining the content in the header alignment.
5. Show / Hide Close Button -- Determines whether to display the cover button widget.
6. Show / Hide Minimize Button -- Determine whether to display a button to minimize the widget.

D. The Content Tab

The screenshot shows the 'Content' configuration tab for a video widget. The left sidebar has tabs for General, Style, Header, Content (selected), and Effect. The main area is titled 'Content' with the subtitle 'Set the video widget content.' and a 'Save Change' button. Below the title bar, there are two settings:

- Show/Hide Button:** A toggle switch with 'On' (green) and 'Off' (grey) options, and a help icon.
- Show/Hide Share Button:** A toggle switch with 'On' (grey) and 'Off' (red) options, and a help icon.

At the bottom, there is a 'Save Change' button on the left and a 'Delete' button on the right. A 'Last Update: 22 October 2015, 11:27:37' timestamp is also present.

In this section contains opsiopsi governing widget content, here are some options available in this section:

1. Show / Hide Button -- Determines whether to display the buttons at the bottom of the widget.
2. Show / Hide Share Button -- Determines whether to display the share button.

E. The Effect Tab

The screenshot shows the 'Effect' tab in a configuration interface. The sidebar on the left has tabs for General, Style, Header, Content, and Effect. The main panel is titled 'Effect' and contains the following settings:

- Show Animation: Linear
- Show Animation Speed: 500 second
- Hide Animation: Linear
- Hide Animation Speed: 500 second
- Show Audio: No Audio
- Hide Audio: No Audio

At the bottom of the panel, there are 'Save Change' and 'Delete' buttons.

This section contains various options to set the effects when the widget is displayed or hidden.

1. Show Animation -- Determines the type of animation to show when the widget is displayed.
2. Show Animation Speed -- Determines the speed of the animation when the widget is displayed.
3. Hide Animation -- Determines the type of animation to apply when the widget is hidden.
4. Hide Animation Speed -- Determines the speed of the animation when the widget is hidden.
5. Show Audio -- Determines the type of audio to play when the widget is displayed.
6. Hide Audio -- Determines the type of audio to plat when the widget is hidden.

Note: This manual is for the full version of the WP Video Attention Plugin. The Lite version has the following features removed down from the full version:

- Countdown
- Optin Form
- Share Button
- Widget Effect
