

Fancy Upsell Pop Up PRO v.2.4.0

USER MANUAL

"Thank You For Purchasing "[Fancy Upsell Pop Up PRO v.2.4.0](#)"

Installation

No installation needed!

Just double click on the "FancyUpsellPRO.exe" file you found in this folder to open software.

How To Use

This software is designed to be very easy to use.

All you really have to do is fill in information the way you would do when you are filling out any other form.

Step #1:

Open up the software.

Step #2:

Simply follow the instructions in the software filling in the required information as you go.

Step #3

Once, you are done, you can save the Upsell Popup HTML code as a text file on your computer, or copy it to your clipboard.

Step #4

Follow the instructions in the text file, on how to insert the button code into any HTML file. Then upload your edited HTML page to your server and link to it. Your sales page with the upsell popup should now be ACTIVE.

e.g. <http://www.yourdomain.com/salespage.html>

*** If you DO NOT have a server, you can copy the HTML code and paste into any free service e.g. blogger that allows HTML code.*

Salespage Order Button Image

If you want to use an order button image, use this code on your salespage.

```
<a href="yourorderlink.html" onclick="lightbox_open();" >  
</a>
```

Upload your image, to your server and link to it replacing the URL above.

****** Test your image order button by clicking on it, to make sure that the upsell pop up is working before your sales page goes live.

Important User Tips

User Tip #1: When the field asks you to enter your color choice, the color codes in the example are the same color codes as in the demo pages. You can just copy and use those as your preferred color choices.

User Tip #2: If you want to change the 'Yes, Add To Cart' text you can do so by editing your HTML and changing it to your preferred 'Call To Action'.

User Tip #3: You can change the font color and size of the text within the coupon box pop up by directly editing the generated HTML code.

User Tip #4: If you want to change the background color of the pop up you can do so by changing the color code in the first **style sheet #light section** under background: #FFF; change that to any color you want to try.

User Tip #5: If you want to change the font size of the coupon button text, you can do so by changing the font size in the last **style sheet .btn section** under font-size: 30px; change that to your desired size.

Have fun with the software! :)
