

# Mobile 2 Step Opt-In Generator v.2.1.0

# USER MANUAL

"Thank You For Purchasing "Mobile 2 Step Opt-In Generator v.3.1"

# Installation

No installation needed!

Just double click on the "MOB2SOPGenerator.exe" file you found in this folder to open software.

## How To Use

This software is designed to be very easy to use.

All you really have to do is fill in information the way you would do when you are filling out any other form.

### **Step #1:**

Open up the software.

### **Step #2:**

Simply follow the instructions in the software filling in the required information as you go.

### **Step #3**

Once, you are done, you can save the Mobile Opt-In Page as a HTML on your computer, preview it or copy it to clipboard.

### **Step #4**

Upload your saved or edited opt-in page to your server and link to it. Your limited offer page should now be ACTIVE.

e.g. <http://www.yourdomain.com/mobile.html>

*\*\* If you DO NOT have a server, you can copy the HTML code and paste into any free service e.g. blogger that allows HTML code.*

## Header Tag For Mobile Page Redirection

Just paste this javascript code below the first <head> tag on your home page. It will redirect any mobile browsers to your mobile version.

```
<script type="text/javascript">
  <!--
  if (screen.width <= 699) {
    window.location = "http://m.domain.com";
  }
  //-->
</script>
```

Replace the "<http://m.domain.com>" with the URL to your mobile opt-in page.

## Header Or Opt-In Page Image HTML

If you are using the header image or product image, use this code.

```

```

Upload your image, to your server and link to it replacing the URL above.

**\*\*** For best results use an image with a maximum width of 250px wide.

## Mobile Opt-In Page Video Embed Code

**Make sure you use single line <iframe> code only.** If you want to use multi line javascript code, then you have to enter a dummy code in the software e.g. [videoembedcode] then go in and add the multi line code using any HTML editor.

**\*\*** *Sometimes the Youtube <iframe code> leaves out the http: within the code add that in the software or else your video will not play on your page.*

**\*\*\*** For best results use a video with a maximum width of 250px wide.

## Opt-In Page Subscription Form Code

**Make sure you use single line <javascript> code only.** If you want to use multi line html code, then you have to enter a dummy code in the software e.g. [optinformcode] then go in and add the multi line code using any HTML or text editor.

Just copy your generated page html to clipboard, paste the code in notepad or any other html editor and from there you can add your opt-in or video code.

## Important User Tips

**User Tip #1:** When the field asks you to enter your color choice, the color codes in the example are the same color codes as in the demo pages. You can just copy and use those as your preferred color choices.

**User Tip #2:** If you want to add links to your Privacy, Disclaimer, Earnings, Terms pages. You can use the 'Additional Info' field. Simply insert your html code.

**User Tip #3:** If you find your opt-in form is too large for the lightbox, in Aweber you can drag and adjust the size to make it bigger, so it is a perfect fit.

**User Tip #4:** If you want to preview your mobile page on other smartphones and tablets you can use this site <http://mobiletest.me> . If your page appears with horizontal scroll bars, adjust your image or video width size.

**User Tip #5:** The background image will repeat, so either use a large image or else use one that shows well when it repeats or just use a background color.

**User Tip #6:** The main image and or video is an optional field, you can leave that out to create very clean streamlined mobile optimized pages. However, without an image or a video your page may not look very attractive.

Have fun with the software! :)
