WPAffiliateRockstar.com
WordPress Plugin

User Manual

Installing "WPAffiliateRockstar".

Installing the plugin is like installing any other WP plugin.

Step 1: Go to the "Plugins" section and click.

Step 2: Click "Add New" and Upload the included zip file.

Step 3: Activate "WPAffiliateRockstar".

Using "WPAffiliateRockstar".

After activating the plugin, you can start creating sales pages by going to the WPAffiliateRockstar Menu (Admin Sidebar) ---> Add New.
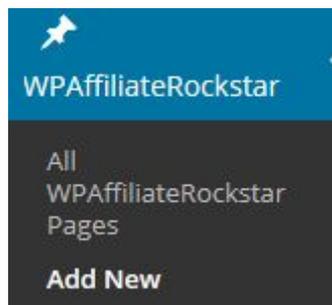

After doing this, you'll be able to enter the settings for you new **WPAffiliateRockstar** page (you can create unlimited pages for all the affiliate products that you want to promote).

Below you'll see a screenshot of this page:

WPAffiliateRockstar Page Settings

Page Background Color: [Select Color]

Branding
Add Your Logo if You Want.

Headline Text: Create EPIC Videos In Minutes!   *Example: Learn How To XYZ With Just Some Clicks.*

Headline

Headline Text Color: [Select Color]

Footer Text: YourSite.com - All Rights Reserved   *Example: YourSite.com - All Rights Reserved.*

Footer Text

Footer Text Color: [Select Color]

Call To Action Button

Button Text: Click Here To Download!   *Example: Click Here To Learn More*

Call To Action Button

Button Url: http://www.youraffiliatelink.com
Can be any url (affiliate etc). The visitors will be redirected to this after clicking the button.

YouTube Video Settings

YouTube Video Url: https://www.youtube.com/watch?v=auDetQ65HKA
Example: https://www.youtube.com/watch?v=auDetQ65HKA

Autplay Video: Yes (Recommended)
Define if you want to autoplay the video or not.

YouTube Video Settings
Easily Customize Every Aspect of Your Video.

Show YouTube Controls: No
Define if you want to show or hide the YouTube player controls.

Redirect To Your Url at The End of the Video: No
You can force a redirect to your url (button url) when the video ends. Comment: The redirect uses a timer based on the lenght of the video. If the user pauses the video, the timer will keep on running.

Show Message Before Redirect: (Optional): Thanks for Watching This Video!
If you have enabled the previous option, this allows you to show a friendly message before doing the redirect.

Your Bonus Download Page For This Campaign (Optional):

Bonus Download Page Content: [Add Media] [Shortcodes]   [Visual] [Text]

B *I* ABC | | | " — | | | | | | | |
Paragraph ▾ | U | | A▾ | | | Ω | | | | |

Thanks For Buying XYZ!

Can Create a Bonus Page Too!
If You're Offering a Bonus For Those Who Buy Through Your Affiliate Link, From Here You Can Easily Create a "Thank You Page" For It Too!

p > span > strong
This page will contain the download details for your bonuses. You can use it, if you are creating a bonus page for this campaign.

Your Bonus Download Page Key: 98sd   *To access your bonus download page (if you are using one) you need to pass the following parameter to your WPAffiliateRockstar page: ?bonuskey=your... For example: http://dominateit.com/fortests6/my campaign/?bonuskey=yoursecretkey ... The key must not contain spaces or strange characters.*

---

3 **Publish and Done!**
That's All.

Everything is very intuitive (+ you'll find instructions for each step) but Just in case, here are some comments that may help:

1) **Background Image:** If you select a background image for your page, the background color won't be used.

2) **Automatic Redirects:** If you want to do an automatic redirect to your affiliate url when the video ends, you need to know that this will trigger a timer that will be programmed to do the redirect based on the lenght of the video, no matter if the user pauses the video or not.

3) **Bonuses:** If you're offering a bonus for an affiliate promo, you can create a download page on the fly for them. Just enter the content for this download page and a private key to access this page.

After publishing you "WPAffiliateRockstar" page, you'll be able to Access to this page by adding the following parameter...

?bonuskey=yoursecretkey

...at the end of your new page.

For example, if you've created the following page with WPAffiliateRockstar....

http://yoursite.com/wafr/product-xyz/

....your download page (for your bonuses) will look like this:

http://yoursite.com/wafr/product-xyz/?bonuskey=yoursecretkey

Remember to replace "yoursecretkey" with the key that you're entered on the page.

If you're using JVZoo or WarriorPlus, you can easily add your url (bonus delivery page) to your affiliate link (in general, when you click the "Get Link" button.

That's all.
