== Installation ==

1. Download the plugin .zip file to your computer

2. Upload and Activate the plugin through the 'Plugins' menu in WordPress Dashboard

3. Make sure your Settings >> Permalinks are on a setting other than 'default'. (post name for example)

4. Enter your Activation Key and submit. (Key is mailed to your email address when you purchase. If you need a new one, just click the link to register your purchase.)

5. Go to Settings >> WP Profiteer and enter the URL that 404 visitors will be redirected to.

6. Enjoy!

Tip: We're sending our 404 traffic to our free offers to build optin lists. If you decide to do this too, just make sure your free gift is high quality, and related to the blog for best results.
