What is OpenSubmit.net

Open Submit is a free web site listing service. It is a myth that all web site submissions services post to all Search Engines. In fact many search engines use sites like OpenSubmit.net to buffer the excessive submissions of users.

Search Engines such as NiceSearch.com download the weekly updates referred to as the RDF content from OpenSubmit.net.

We've put together the largest list of sites that OpenSubmit.net posts too. There are many more ping sites that OpenSubmit.net uses but these urls are the more reliable.

How do I use this E-Book?

You may use the URLs below or use the TXT file that came with this zip file. Each web address has a tag **[YOURURLHERE]**. You will need to find and replace all occurrences of this tag with your web site. Eg. Find this **[YOURURLHERE]** and replace it with <http://www.nelsonbuck.com>.

Where can I get an updated list of Ping sites?

OpenSubmit.net does not produce a list of ping sites. You will need to wait until another version of this e-book is released.

Mardox.com Members have access to a weekly list of known ping sites. You may become a member for free at <http://mardox.com>.

The list of over 1,600 Ping Sites.
