#### Video #1: Introduction to the Backward Funnel Method

Up until this point you may not have heard of the backward funnel method. So in this particular video we are going to give you a quick overview of exactly what will be discussed in this video course. Plus, we'll talk about how it all works so that you can create your own game plan for implementation.

#### Video #2: The Ladder

Before we can jump into understanding how to implement this method, you need to understand what causes writers block or, in this case, a big roadblock that prevents you from creating your products and services in the form of front end offers and one time offers.

#### Video #3: The Biggest Mistake

Once you understand how to prevent writers block and potential future roadblocks, it's time for you to learn about the biggest mistake that most people tend to make when it comes to building your sales funnel final from front to back.

#### Video #4: Your High Ticket Offer

In this particular video we will be covering your highest priced offer first. We will discuss how you can go about creating lists, what it entails, and why you should start with this offer first rather than starting from the front.

#### Video #5: Your One Time Offer

Next, we will move to the one time offer and show you exactly how to make everything congruent so that you have the highest converting funnel ever. Now, there is a specific way of doing this, so we will show you step-by-step how to go from basic understanding to full implementation in this video.

#### Video #6: Your Front End

Next we will cover the front end offer. This is going to be what people see as of the first page that sells your first product. Oftentimes when businesses start at this point and move forward through their sales funnel, they get extremely confused. We don't want that to happen to you, so we will make sure that you understand exactly how to create a high converting funnel as well as an effective one.

#### Video #7: Your Lead Magnet

Now comes the freebie that you can offer to people in exchange for their email address. This can be considered building your prospect of lists or people that have not purchased your product just yet. But this part is crucial because it's the very front end of your sales funnel. Do this wrong and you can ruin the rest of the funnel. Do this right and you can set the tone for your sales funnel and a positive, high conversion rate.

#### Video #8: Practical Application: 5 Minute Examples
